I. CAMPUS FACILITIES

I-1.1 Use of Facilities and Grounds

I-1.1.1 Use of Facilities by College-Affiliated and Outside Groups

Guilford Technical Community College's buildings and allied facilities are available to responsible groups when such use is determined to be beneficial to the citizens of Guilford County and/or GTCC, and when it will not interfere with or be detrimental to the ongoing educational programs, operations, and facilities of the college.

Student and faculty organizations and activities are integral parts of the educational process; therefore, all campus-affiliated groups may, with proper approval, use the college's facilities when their activities are a part of the college's mission.

Groups affiliated with GTCC shall have priority over other groups in reserving campus facilities. When space is available and subject to reasonable procedures for reservations, GTCC welcomes other organizations to campus for meetings or other events when their work supports or enhances the educational purposes of the college and the proposed meeting or event does not generate reasonable concern for the safety of persons or property.

Non-affiliated groups may use GTCC facilities. However, such groups may not use the facilities for profit-making purposes except as specified under [G. S. 66-58\(c\)](#) and [G. S. 115D-20\(12\)](#). UNC Institutions may have access to GTCC facilities as specified in the Memorandum of Understanding between the North Carolina Community College System and the University of North Carolina. Private businesses that loan or donate instructional equipment may use college facilities on a limited basis to demonstrate the equipment to customers or potential customers in accordance with [State Board of Community College Code SBCCC 02C.0503](#).

Attendance at any event may not be restricted on the basis of race, sex, color, religious affiliation, national origin, or disability.

When required, charges for the use of the facilities shall be made according to the schedule of fees outlined in the procedural guidelines of this policy.

I-1.1.9 Naming of Facilities and Other Tributes

Final authority for naming facilities (or any specialized campus center or activity) rests with the Board of Trustees.

The character and use of the facility to be named or the purpose of the naming tribute should be considered when a name is chosen. Individuals for whom facilities or tributes are named should, as a rule, be alumni, college personnel, trustees, major donors, or other distinguished persons, whether living or deceased who have had a significant positive impact on the college over an extended period of years. Duplication of names should be avoided; no facility should be named for a person whose surname has already been assigned to another facility.

The word "facility" as used above applies to buildings, conference rooms, streets, courts, athletic fields, and other named places. Other tributes include curriculum programs, workforce/ continuing education programs, an event or series of events, or other designated special funds. Use of the words "individual" and "person" above need not preclude the naming of facilities for families, groups, organizations, foundations, or corporations.

I-1.1.12 Emergency Closing

This policy pertains to catastrophic emergencies involving evacuation and/or closure of any/all Guilford Technical Community College facilities. When an emergency closing of the college or any of its facilities occurs, the college may provide paid time off, subject to available funds, for regular and time-limited employees who are required to evacuate a location or worksite as a result of emergency conditions as determined by emergency/public safety officials or the college president or their designee. The college should make every effort to relocate employees to a safe worksite in lieu of work stoppage. If relocation is not a viable option, employees may be paid for lost time from work during the period of time designated as an emergency closing subject to available funds.

During an emergency closing, some employees may be designated as mandatory or essential employees. During an emergency closing, these employees may be required to report to work as determined by the college president or their designee. These employees may be awarded additional compensation (subject to available funding), additional annual leave, additional recognition, or a combination of these as determined by the college president or their designee. This provision applies to all employees who are exempt and non-exempt under the Fair Labor Standards Act (FLSA). This provision does not include temporary employees.

See *I-1.1.11 College Closure/Delay* policy for conditions and procedures related to college closure, but that do not warrant an “emergency closing”.

See *III-2.1.4 Disease, Infectious or Communicable* policy for conditions and procedures related to preventing the spread of serious communicable diseases on the college’s campuses.

II-1.1 Information Security and Confidentiality

Guilford Technical Community College collects and stores varied types of data in order to facilitate the college's business. As a responsible organization, and to comply with state and federal statutes, the college recognizes that data should be treated as any other valuable asset: it should be protected from accidental or unauthorized use, theft, modification, or destruction; data should be secured from the time of collection until the time of disposal; access to stored data should be secure and at the minimum level necessary for effective job performance. II-2.1.6 Intellectual Property

Guilford Technical Community College adopts the following document as its Intellectual Property Policy. The president and/or designees of the president have the authority to make changes in the provisions of Section 6. Administration of Intellectual Property without further action of the Board of Trustees.

SECTION 1. INTRODUCTION

This document establishes a policy for Guilford Technical Community College (“GTCC”) with respect to intellectual property developed by faculty, staff, and students. The goals of this Policy are:

- To provide appropriate incentive to creative intellectual effort by faculty, staff, and students;
- To establish principles for determining the interests of GTCC, authors, inventors, and sponsors in regard to original works of authorship, inventions, and/or discoveries;
- To enable GTCC to determine the significance of original works of authorship, inventions, and/or discoveries that may be brought to the point of commercial utilization; and
- To recognize the right of the author or inventor to financial benefits in the original works of authorship, inventions, and/or discoveries.

SECTION 2. COPYRIGHTS

The GTCC policy with regard to copyrightable works is intended to foster the traditional freedoms of GTCC faculty, staff, and students in matters of publication, through a fair and reasonable balance of the equities among authors, sponsors, and GTCC. At the same time, the policy is intended to ensure that copyrightable materials in which GTCC has a legitimate interest are utilized in a manner consistent with the public interest.

A. Definition of Copyrightable Material

Copyrightable materials include original works of authorship for which property rights are protected under federal copyright legislation such as books, manuscripts, artistic works, movies, television programs, software, music, and multimedia materials.

B. Copyright Use

GTCC supports the responsible, good faith exercise of fair use rights, as codified in [17 U.S.C. § 107](#), by faculty, librarians, and staff in furtherance of their teaching, research, service, and other educational activities. (Copyright Law of the United States of America and related laws contained in Title 17 of the United States Code.)

GTCC shall:

1. Inform and educate the GTCC community about fair use and the application of the four fair use factors as set forth in [17 U.S.C. § 107](#) and as interpreted in applicable case law. The four factors are:
 - a. The character and purpose of the proposed use.
 - b. The nature of the work to be used.
 - c. The amount and substantiality of the portion to be used.
 - d. The effect on the market or potential market for the work.
2. Develop and make available resources concerning copyright laws in general and the application of fair use in specific situations.
3. Ensure that employees and students have access to assistance in making fair use

determinations.

C. Ownership

1. Works by faculty

a. Non-Directed Works

A “non-directed work” is a pedagogical, scholarly, literary, or aesthetic (artistic) work originated by a faculty employee resulting from an effort that is not specifically funded or created at the direction of GTCC. Such works may include textbooks, manuscripts, scholarly works, fixed lecture notes, distance learning materials not falling into one of the other categories of this Policy, works of art or design, musical scores, poems, films, videos, audio recordings, or other works of the kind that have historically been deemed in academic communities to be the property of the author.

Except as otherwise provided in Section 2 of this Policy, non-directed works shall be owned by the author (the word “author” as used in this Policy also includes the plural where there is more than one author or contributor) of the work. (See Section 2(C)(2) below for the definition of “work for hire;” under the Copyright Act GTCC is deemed the “Author” of a work for hire.) If GTCC is to be involved in commercializing a non-directed work, the work’s author shall assign the work to GTCC. In cases of ownership by the author of a non-directed work, GTCC, where practical, shall be granted a non-exclusive, nontransferable, royalty-free license to reproduce, distribute, publicly perform, publicly display, or make derivative works of the work for its own educational or research use (hereinafter referred to as a “Shop Right”).

b. Non-Directed Works Involving Exceptional Use of GTCC Resources

“Exceptional use of GTCC resources” means GTCC support of non-directed works with resources of a degree or nature not routinely made available to faculty in a given area.

The following are some examples of that are presumed to be exceptional use:

- 1) Waiver of fees normally required to use specialized GTCC facilities (e.g., equipment, production facilities, service laboratories, special computing resources, studios) where those facilities are used in creation of the work;
- 2) GTCC grants or gifts in support of the work’s creation;
- 3) Reduction in levels of teaching, service or other GTCC employment responsibilities (e.g., course load, student advising, division/department meetings, office hours, administrative tasks) granted solely for the purpose of facilitating creation of a specified work or works; and
- 4) Use of GTCC personnel, laboratory space, equipment, or supplies not routinely made available to faculty or employees.

Exceptional use does not normally include routine use of GTCC personnel, office space, laboratories, desktop computers, libraries, telephones, and information resources in a manner that (i) does not interfere with or delay use for GTCC business purposes, and (ii) does not result in substantial direct costs to GTCC.

Non-directed works involving exceptional use of GTCC resources shall be owned by GTCC. However, upon approval by the Intellectual Property Committee, GTCC may release or transfer its rights to the work’s author, with GTCC retaining (1) a Shop Right, and/or (2) the right to require reimbursement and/or income sharing from the author to

GTCC if the work produces income for the author. The parties may also negotiate for joint ownership of such works, with the approval of the Intellectual Property Committee.

c. Directed Works

“Directed works” include works that are specifically funded or created at the direction of GTCC (including, but not limited to, works for hire by faculty or other employees).

Directed works shall be owned by GTCC. The work’s author, where practical, shall be granted a Shop Right. GTCC may release or transfer its authorship rights to the work’s author under a written agreement negotiated between the author and GTCC, usually with GTCC retaining (1) a Shop Right, and/or (2) the right to require reimbursement and/or income sharing from the work’s author to GTCC if the work produces income for the author. The parties may also negotiate for joint ownership of such works, with the approval of the Intellectual Property Committee.

d. Sponsored or Externally Contracted Works

A “sponsored or externally contracted work” is any type of copyrighted work developed using funds supplied under a contract, grant, or other arrangement between GTCC and third parties.

For a sponsored or externally contracted work created under an agreement that expressly requires copyright ownership by GTCC, the author of the work must disclose the work to GTCC. Provided there is no conflict with a sponsored agreement, GTCC may release or transfer its rights to the work’s author under an agreement negotiated between the author and GTCC, usually with GTCC retaining (1) a Shop Right, and/or (2) the right to require reimbursement and/or income sharing from the work’s author to GTCC if the work produces income for the author; or the parties may also negotiate for joint ownership of such works, with the approval of the Intellectual Property Committee. For a sponsored or externally contracted work created under an agreement that does not expressly require copyright ownership by GTCC or a third party, the author of the work shall own the work, subject to required disclosure to GTCC. In case of ownership by the work’s author, GTCC, if practical, shall be assigned a Shop Right.

2. Works by GTCC Staff

For purposes of this policy, a staff member that engages in academic instruction shall be Considered “Faculty” with regards to works created within the scope of the staff member’s employment and relating to the provision of academic instruction by such staff member. (See Section 2(C)(2) above).

Most works by GTCC staff members are considered to be “Works for Hire.” A “work made for hire” is:

- A work prepared by an employee within the scope of their employment, including without limitation a work created in the context of carrying out administrative duties for GTCC; or
- A work specially ordered or commissioned for use as a contribution to a collective work, as a part of a motion picture or other audiovisual work, as a translation, as a supplementary work, as a compilation, as an instructional text, as a test, as answer material for a test, or as an atlas, if the parties expressly agree in a written instrument signed by them that the work shall be considered a work made for hire.

- Works for hire made by GTCC staff shall be owned by GTCC. In special cases, however, GTCC may enter into a written agreement in advance that the employee shall own the copyright. In addition, the Intellectual Property Committee may waive GTCC ownership.

3. Works by Independent Contractors

Works by independent contractors shall be owned in accordance with the contract under which the work was created. GTCC shall ensure that there is a written contract for work by an independent contractor specifying GTCC ownership.

4. Works by Students

“Student works” are papers, computer programs, theses, dissertations, artistic and musical works, and other creative works made by students in the instructional process. For purposes of this Policy, the term “students” includes teaching, graduate, and research assistants.

Except as provided below, student works shall be owned by the author, and GTCC, where practical, shall be granted a Shop Right.

- 1) Sponsored or Externally Contracted Works: Ownership shall be in accordance with Section 2(C)(1)(d) of this Policy on sponsored or externally contracted works made by faculty or other GTCC employees.
- 2) Works for Hire: Student works created by students in the course of their employment with GTCC shall be considered to fall within the scope of Work for Hire in accordance with Section 2(C)(2) of this Policy on works for hire made by GTCC staff.

D. Distribution of Income

Commercialization of Employee or Student Owned Works by GTCC: If a GTCC employee or student wants GTCC assistance to commercialize a work for which they own the copyright, they must contact the Intellectual Property Committee. If the Intellectual Property Committee agrees to assist in commercialization, the author must assign copyright in the work to GTCC. The assignment agreement shall contain provisions outlining the commercialization responsibilities of GTCC and a mechanism for the sharing of commercial proceeds with the author. The author receives sixty (60%) percent of the net proceeds from the commercialization of the work and GTCC receives forty (40%) percent.

Commercialization of GTCC Owned Works: GTCC may commercialize works owned by GTCC. If a work created by a faculty member is owned by GTCC due to exceptional use of GTCC resources and is commercialized by GTCC, GTCC receives sixty (60%) percent of the proceeds and the author receives forty (40%) percent of the net proceeds.

Commercialization of Jointly Owned Works: Works that are jointly owned by GTCC and the author may be commercialized in accordance with a written agreement negotiated by the parties and the division of proceeds will be specified in that agreement.

E. Works Subject to Protection by Both Copyright and Patent Laws

In cases where an invention or creation is subject to protection under both patent law and copyright law, if GTCC elects to retain title to its patent rights, then the inventor/author(s)

shall assign the copyrights to GTCC and the inventor/author(s) shall be compensated in accordance with the royalty provisions of this Policy regarding patent revenue sharing.

F. Videotaping and Related Classroom Technology

Any courses that are videotaped, recorded, or transmitted using any media are GTCC property and may not be further distributed without permission from the Intellectual Property Committee. All videotaped courses shall carry an appropriate copyright notice.

G. Copyright Registration

The responsibility for determining the need for copyright registration of a GTCC owned work shall rest with the Intellectual Property Committee.

H. Use of GTCC Name in Copyright Notice

In general, all GTCC owned works should bear appropriate copyright notice. Such copyright notice should be composed and affixed in accordance with United States copyright law, as follows:

Copyright (year) GTCC. All Rights Reserved. The date in the notice should be the year in which the work was created, with separate dates included for years in which any changes are made to the work.

SECTION 3. INVENTIONS

A. Patent Ownership

GTCC shall own all rights and title in all inventions and discoveries of GTCC faculty, staff and students that are: (1) conceived or first actually reduced to practice as a part of or as a result of GTCC research or activities within the scope of the inventor's employment by GTCC, or (2) that involve the use of GTCC time, facilities, staff, materials or funds administered by GTCC. Inventions that are made by faculty, staff, and students entirely on their own time and without the use of GTCC facilities, equipment, staff, supplies, resources, or trade secret information, shall remain the exclusive property of the inventor.

In the event there is a question as to whether GTCC has an ownership claim to an invention, the invention should be disclosed according to Section 3(B) below. Such disclosure is without prejudice to the inventor's ownership claim. In determining ownership interest in an invention, GTCC may determine that GTCC has no property interest in an invention because its conception and reduction to practice were unrelated to the inventor's duties as a GTCC employee or involved only insignificant use of GTCC resources (such as office space or libraries normally available to all faculty and staff). The inventor will receive a written statement confirming GTCC's property interest. If a student makes an invention that is, or may be, subject to GTCC ownership in accordance with this Policy, the student shall disclose the invention to GTCC as provided in Section 3(B) below, and GTCC, together with the student, shall determine an equitable resolution of ownership rights.

B. Disclosure

GTCC faculty, staff, and students are required to report all inventions and discoveries in which GTCC may have an interest to GTCC's Intellectual Property Committee (a "Disclosure Report"), at which time the possibility of exploring patenting should be

considered. Students should first discuss an invention with their instructor, who shall assist them in further discussion with GTCC.

In order to preserve rights in unpatented inventions, it shall be the duty of the inventor, or of the supervisor if the inventor is not available, to report to the Intellectual Property Committee any publication, submission of manuscript for publication, sale, public use, or plans for sale or public use, of an invention, if a Disclosure Report has previously been filed with respect to the invention. If an invention is disclosed to any person who is not employed by GTCC or not working in cooperation with GTCC upon that invention, a record shall be kept of the date and extent of the disclosure, the name and address of the person to whom the disclosure was made, and the purpose of the disclosure. The inventor shall promptly notify the Intellectual Property Committee of the acceptance for publication of any manuscript describing the invention or any sale or public use made or planned by the inventor.

In those cases in which GTCC has obtained a patent without obligation to any sponsor that supplied funds under a contract, grant, or other arrangement for the development of the underlying invention, and no arrangement has been made for commercial development of the invention within a reasonable period from the date of the issuance of the patent, the inventor(s) may request in writing a release of GTCC's patent rights. The Intellectual Property Committee will promptly either grant the request or will advise the inventor of GTCC's plans for the development of the invention.

As to any invention in which GTCC has determined that GTCC has an interest, the inventor, upon request, shall execute promptly all contracts, assignments, waivers or other legal documents necessary to vest in GTCC or its assignees any or all rights to the invention, including complete assignment of any patent or patent applications relating to the invention. GTCC personnel may neither (a) sign patent agreements with outside persons or organizations which may affect GTCC's rights and interests as stated in this Policy or as provided in any grant or contract funding the invention, nor (b) without prior written authorization use the name of GTCC in connection with any invention.

C. Revenue Sharing

GTCC shall share revenue which it receives from patents or inventions with the inventors. As noted above, specific provisions of grants or contracts may govern rights and revenue distribution regarding inventions made in connection with sponsored research; consequently, revenues GTCC receives from such inventions may be subject to payments of royalty shares to sponsors or contractors. Moreover, GTCC may contract with outside persons or organizations to obtain, manage, and defend patents, and any royalty shares of expenses contractually committed to such persons or organizations may be deducted before revenues accrue to GTCC.

The revenues (net, if applicable per the preceding paragraph) which GTCC receives from a patent or invention will be applied first to reimburse GTCC for any incremental expenses incurred by it in obtaining and maintaining patents and/or in marketing, licensing and defending patents or licensable inventions. After provision for such expenses, the inventor's share of such revenues shall be as follows: 50% of the first \$500,000 of the net revenue and 35% of net revenue thereafter. In the case of co-inventors, each such percentage share shall

be subdivided equally among them, unless GTCC in its sole discretion determines a different share to be appropriate. Applicable laws, regulations or provisions of grants or contracts may, however, require that a lesser share be paid to the inventor.

D. Inventor Request for a Determination of GTCC Rights

If the inventor believes that the invention was made outside the general scope of their GTCC duties or entirely on the inventor's own time and without the use of GTCC resources, and does not choose to assign the rights in the invention to GTCC, they shall, in the invention disclosure, request that the Intellectual Property Committee determine the respective rights of GTCC and the inventor in the invention and shall include information on the following points:

- 1) The circumstances under which the invention was made and developed;
- 2) The employee's or student's official duties at the time of the making of the invention;
- 3) Whether they request a waiver or release of any GTCC claims or acknowledgment that GTCC has no claim;
- 4) Whether they wish a patent application to be prosecuted by GTCC, if it should be determined that an assignment of the invention to GTCC is not required under this Policy; and
- 5) The extent to which they would be willing voluntarily to assign domestic and foreign rights in the invention to GTCC if it should be determined that an assignment of the invention to GTCC is not required under this Policy.

E. Responsibilities of GTCC Personnel

Employees engaged in external consulting work or business are responsible for ensuring that agreements emanating from such work are not in conflict with this Policy or with GTCC's contractual commitments. Such employees should make their GTCC obligations known to others with whom they make such agreements and should provide other parties to such agreements with a statement of this Policy.

SECTION 4. TRADEMARKS AND SERVICE MARKS

Trademarks and service marks (collectively "trademarks") include any word, name, symbol, sounds or device used by a person or entity in commerce to distinguish its goods/services from those of others and to identify the source of those goods/services. Trademarks used for goods or services distributed by GTCC shall be owned by GTCC. Examples include, but are not limited to, names and symbols used in conjunction with computer programs or GTCC activities and events. The ownership of a trademark is determined by the identity of the entity that uses the trademark. It follows that the fact that a member of the faculty, staff or student creates a trademark used by GTCC does not confer any ownership rights in the faculty member, staff or student. The Intellectual Property Committee should be consulted about registration, protection, and use of marks.

SECTION 5. PROPRIETARY INFORMATION

Proprietary information arising out of GTCC work (e.g. Actual and proposed terms of agreements, financial arrangements, or confidential business information) shall be owned by GTCC. Trade secret is a legal term referring to any business or technical information, whether or not copyrightable or patentable, which derives commercial value from not being generally known or readily ascertainable and is the subject of reasonable efforts to maintain its secrecy. Trade secrets are proprietary information.

SECTION 6. ADMINISTRATION OF INTELLECTUAL PROPERTY

A. Organization

The vice president of Instruction is responsible for the administration of intellectual property matters at GTCC. GTCC may contract with outside agents for certain technology transfer services, including marketing and licensing of GTCC owned copyrights and inventions.

The vice president of Instruction is authorized to negotiate with reputable agencies or firms to secure arrangements for intellectual property management, including evaluation of invention disclosures, filing of patent, trademark, and copyright applications, and licensing and administration of intellectual property.

B. Intellectual Property Committee

The Executive Vice President shall appoint an Intellectual Property Committee (IPC) consisting of no fewer than three members. The vice president of Instruction shall serve as Chairman of the Committee, and the vice president of Workforce and Continuing Education and at least one faculty member shall serve on the Committee. The Committee shall be responsible for the following:

- 1) Review and recommend to the Board of Trustees changes to these procedures.
- 2) Decide upon appropriate disposition of intellectual property disclosures.
- 3) Resolve questions of intellectual property ownership.
- 4) Recommend the expenditure of royalties.
- 5) Make such recommendations as are deemed appropriate to encourage disclosure and assure prompt and effective handling, evaluation, and prosecution of invention opportunities and to protect the interests of GTCC and the public.

The president of GTCC shall have the right to review and overrule any decision of the Intellectual Property Committee. Any interested party may appeal a decision of the Intellectual Property Committee to the president of GTCC.

II-2.1.7 Copyright

All college-sponsored instruction, activities, events, publications, theatrical, or musical performance must be in compliance with federal copyright law ([Title 17, U.S. Code](#)). Employees of the college are individually responsible for identifying and obtaining information about copyright requirements, which relate to the performance of their duties, and for conforming to them. Employees who do not adhere to copyright requirements are acting beyond the scope of their employment, and may be subject to disciplinary action or dismissal. In order to assist employees in complying with the copyright law, the college maintains guidelines and procedures on the copyright law and its application.

Individuals not employed by the college or under a college contract requiring such action are not allowed to access college data without specific prior approval.

Employees who have knowledge of campus security setups and configurations such as passwords, IP addressing schemes, etc., are prohibited from sharing such information with students or non-GTCC employees, with the exception of vendors working with the college on specific projects. III. POLICIES AFFECTING THE DELIVERY OF PROGRAMS

III-1.1 The Instructional Process

III-1.1.1 Academic Freedom and Responsibility

Guilford Technical Community College is committed to the objective of educating its students. Since academic freedom is essential to the pursuit of this goal, the college encourages, supports and protects all staff members (teaching and non-teaching) in their academic pursuits—teaching, performing academic research, discussion and publication. Academic Freedom carries with its duty's correlative with that freedom. Each staff member is free from restraints and penalties that would restrict responsible academic endeavors.

It is the staff member's responsibility to present material objectively. Within a course, discussions and assignments should relate to the material designated by the course outline. Under other conditions, discussion and assignments should be in accordance with the college's mission, philosophy and goals.

Each staff member has the right to perform research and to publish the results of this research. This right is subject to restraint only if it imposes upon the first priority of each member at Guilford Technical Community College, which is to maintain excellence in job performance.

As a citizen of the community, the staff member is free from institutional censorship and discipline in the exercise of the freedom to speak and write as a private citizen. The staff member must recognize that as an employee of Guilford Technical Community College, the public may assume that one speaks for the college; therefore, each employee is responsible for alerting the public that they are not serving as a college spokesperson.

Further, Guilford Technical Community College provides books and other learning resources which reflect the needs of its educational programs and includes materials with all points of view for the information, interest and enlightenment of the community the Learning Resource Center serves. Materials are selected using the best knowledge and criteria of the staff members of the college.

1. Employees

- a. An employee who decides to perform academic research during the established work schedule must inform their immediate supervisor in writing. The notice should precede the beginning of the research.
- b. The notification should include:
 - Name of employee
 - Summary of proposed project
 - Expected length of the project
 - In oral or written public expression, the employee must indicate in a definite manner that one is speaking/writing as a private citizen.

2. Learning Resources

In the fulfillment of the responsibility to provide information and enlightenment, censorship will be challenged.

- a. The Director, Library or designated staff member will notify the appropriate vice

president of any attempts to abridge this freedom.

b. The vice president will insure that this freedom is not abridged.

3. Rules

a. Academic research conducted by an employee during the established work schedule must not impose upon teaching, student, or institutional obligations.

b. Such research must relate to the employee's responsibilities as specified by the job description.

c. All instructional faculty must maintain the relevance of lecture content and course requirements as specified by the course outline. Supplementary learning resources must be directly related to the course as a whole.

III-1.1.2 Credit Hours and Coursework

Guilford Technical Community College (GTCC) uses directives from the State Board of Community Colleges Code [1G SBCCC100.1 Definitions](#), [1D SBCCC 400.97 Courses and Standard for Curriculum Programs](#) and from [Federal Regulations 34 CFR 600.2](#) to define credit hour and determine the amount and level of credit awarded for courses. A credit hour reflects the amount of work required to achieve identified learning outcomes and is validated by student achievement of those outcomes. The credit awarded is the same for courses regardless of instructional delivery method. In addition, GTCC complies with the directives from the North Carolina Community College Combined Course Library.
